NEWS RELEASE

Announcing The Most Innovative, Space Saving Idea Of The Year!

TERRACE MATES™ is an innovative solution to the search for shade and dining space on narrow balconies and terraces. At last, condominium, townhouse and apartment dwellers can effortlessly transform cramped and long ignored patio, deck or veranda areas into a welcoming and vibrant addition to their lifestyle.

Blue Star Group's exciting **TERRACE MATES™** collection of folding tables and chairs feature the exclusive **OFF-THE-WALL BRELLA™** half-canopy umbrella and custom cast base. The **CALEO**, **VILLA**, and **BISTRO SETS** are specially designed to stand without attachment in front of a wall, fence, window or sliding glass door. This convenient product creates a delightfully shaded outdoor living experience to enjoy from any view. When not in use the umbrella, table and chairs can be folded neatly along the wall and out of the way to conserve space. Patents Pending.

TERRACE MATES™ versatile and portable designs will become essential for any outdoor event where unused space can be converted into useful sitting and dining areas. It is ideal for sidewalk Cafés where restaurateurs and event planners can create or expand their outdoor seating capacity.

TERRACE MATES™ table and chairs are made of strong, durable hardwood that can withstand the elements year after year. Canopies for **OFF-THE-WALL BRELLA™** are available in Olefin® or optional **SUNBRELLA®** material.

Adding a set of **BRELLA LIGHTS®** to the umbrella can further enhance the settings ambience with a delightful glow of soft, subtle light when the sun goes down. And, **BRELLA VASE®** is sure to bring creative floral design to the scene.

TERRACE MATES™ and **OFF-THE-WALL BRELLA™** the popular **BRELLA LIGHTS®** and **BRELLA VASE®** products in Blue Star Group's continuing commitment to unique and innovative designs for consumers.
