

## **BRELLA LIGHTS**<sup>®</sup>

### **The Best Way to Add Mood Lighting To Any Patio Setting**

What makes **BRELLA LIGHTS**<sup>®</sup> the ideal  
Patio Umbrella Lighting System for your customers?

- There's no need to worry about lack of sunshine for expensive solar lights, fading light from low batteries, replacing batteries, or the dim light of LED systems.
- 20 enhanced IN-LINE lights on each rib deliver a delightful balance of subtle mood lighting for a romantic atmosphere, with brightness suitable for any festive occasion.
- The “**Power Pod**” multi-outlet receptacle clips neatly to the umbrella pole at tabletop level. Watch TV, blend a smoothie or just relax and enjoy late night gatherings and conversation on the patio with family and friends.
- **BRELLA LIGHTS**<sup>®</sup> patented features are U.L. Listed specifically for umbrella attachment and are designed to stay conveniently on the umbrella when it is closed, opened or stored. They are constructed so that if one bulb burns out, the rest remain lit.
- No other umbrella lighting system combines as many desirable features with the dependability and economical cost of **BRELLA LIGHTS**<sup>®</sup>.
- For more information about **OFF-THE-WALL BRELLA**<sup>™</sup> and other distinctive Blue Star Group products, we invite you to tour the **BlueStarGroup.BIZ** website.

**A winning combination that delivers continuing consumer interest  
and profitable sales.**
